SILVER JUBILEE YEAR

ST. KAREN'S MONTESSORI SCHOOL'S NEWS LETTER

Issue-9 (2016)

25
Years

STRONG ACADEMICS AND STIMULATING ENVIRONMENT

Every year is an opportunity to strengthen our focus. Strong academics and providing a stimulating environment, as envisioned by our founders, is achieved through an intensive but lively and enjoyable curriculum based on creative learning. We always strive to seek new and different ways of inspiring every child so as to empower and develop competency in the core subjects.

An Edifice of Enlightenment

Time to celebrate and cheer

'Cause it's the Jubilee year.

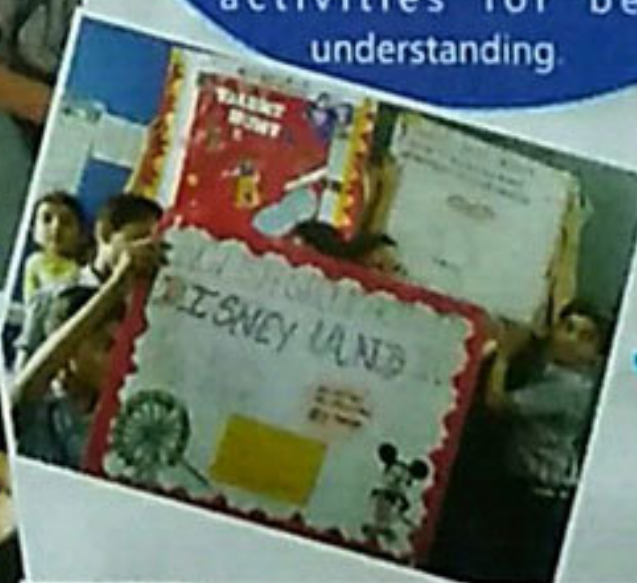

With hope and belief in our hearts

To excel in the coming years.

The completion of 25 years is indeed a major achievement for our institution. This Silver Jubilee is a celebrative milestone in the journey of St. Karen's Montessori School.

Since its inception in 1990 our school has been striving to provide education with the vision that it's a process of awakening the individual's potential to creative knowledge thus inculcating the desire to excel in various spheres.

We at St. Karen's Montessori School believe in providing education that not only caters to the student's knowledge and academics but also focuses on the personality development and overall grooming of individual talent. 2015, the Jubilee Year, was marked with activities which carry forward the ethos of its founders.

This year we had many challenging activities in the main subjects so as to develop interest and help in better understanding of the concepts taught in class. Verbal instructions were supplemented by a variety of interactive classroom and group activities for better understanding.

Reading is a complex cognitive process of decoding in order to understand. It is important for learning a language and for sharing of ideas and information. Students in our school are provided with ample opportunities to develop the reading habit through our reading activities like D.E.A.R., ONRT and Supplementary reading books. This year in order to magnify their enjoyment of reading, we showed our students 'Heidi', which was a part of their supplementary reading. It was thoroughly enjoyed by the students.

FOCUS ON VALUES : CELEBRATION OF FESTIVALS

As every year the Silver Jubilee year also saw the celebration of festivals in the form of creative activities and special assemblies. Rooted in the ethos of timeless traditional values with the purpose of inculcating them in the students, our Special Assemblies, focus on developing virtues and values that foster a feeling of oneness.

Patriotism FOOT Prints

National festivals are celebrated in our school with great fervor. Our school lays great emphasis on developing love for one's country and devotion to its welfare. This year's Independence Day Special Assembly paid homage to our freedom fighters and also educated students about the social reformers of modern India, who are striving hard to free India from the social evils prevalent in our society, so as to make it a better place to live in.

SOCIALLY MOTIVATED STUDENTS

Our school's commitment to the service of the society is a part of the founder's mission. St. Karen's Montessori School is committed to the service of the society. So when it was time to help our neighbours in distress, our school and its students donated generously for the Nepal Earthquake victims. This year saw a stupendous growth in Helpage India collections and donation of articles of daily use for the underprivileged children during Christmas.

HARNESSING CREATIVITY

Creativity is innovation and improvisation. It is important for the overall development of a child. In our school we conduct a lot of activities that educate students. The importance of some special days like Mother's Day and Friendship Day unite them by involving them in activities based on celebration of different

festivals. We had a special diya decoration on Diwali and Christmas Tree decoration on Christmas... Activities which tingled their imagination and gave wings to their imagination.

OUR CREATIVITY WALL DREAMS & ASPIRATIONS

My name is Kuchir of Std I-B I am 7 years old.

<p>THIS IS ME NOW!</p> 	<p>THIS IS ME WHEN I GROW UP!</p> 
<p>Something special about me is that I am very good in drawing.</p>	<p>I want to be an astronaut because I want to go in space and search Aliens.</p>

Victory girl

OUR CREATIVITY WALL EXPRESSIONS & FEELINGS

SWEET HEARTS OF KINDERGARTEN

The little darlings of our Kindergarten are truly the young sapplings of our school. Throughout the year they contributed their full energy to put up some great and marvelous programmes. They showed great enthusiasm in many such events and dramas based on themes with their appealing costumes. These young sapplings are guided and nurtured by their teachers, who work hard to bring out their talents to the fore.

In a one Act Play based on animals, they gave a message that – animals are a part of nature and we should save them and take care of them. They also showed their creativity through some of the group activities related to the festivals.

Unique in every way, our little sweethearts showed that they are masters of great potential.

As we are celebrating Silver Jubilee of the School, our sweet hearts showed their creativity through some of their activities in groups.

They enjoyed story telling time using finger puppets and props made with craft materials by their own little hands.

On different events like Mothers' Day and Parents' Day our little ones made cards and photo frames just to show their love to their parents with great affection.

They were taught to make Rakhi and Friendship Bands. While the most attractive activity that they did was filling in colours for the Rangoli Competition and Alpana Making.

For Christmas the 'cuties' decorated the Christmas trees and Santa's Caps.

The little ones also visited the book fair and showed their excitement and interest for books. They also participated in a Lucky Draw Competition by making 'Aliens' as per the theme and one special prizes too.

SPORTS DAY

SILVER JUBILEE CELEBRATION

Sports teaches discipline to the students. Sports is very essential for the students as it develops the spirit of sportsmanship and inculcates the quality of team spirit in the students.

Students also learn the quality of leadership and working unitedly. Sports also increases the self esteem and mental alertness of a student.

This year's Annual Sports Day was all the more special as it was held to mark the momentous

occasion of St. Karen's Montessori School completing 25 years. In these 25 years St. Karen's Montessori School has groomed its young cadets with qualities which symbolizes integrity, devotion, generosity, courage, inspiration and discipline.

The spectacular event started with the welcome speech by the Chief Guest Mr. Bipin Kumar Singh, Chairman of Railway Recruitment Board, who took the salute and hoisted the flag.

The students of our school showcased their creative talent

through mass drills like the Puppet Drill, Super hero Drill, The Pole Drill and exhibited their skills through various colourful and creative races for the tiny tots like the Pirates of the Silver Jubilee, the Spell Bee Wizard Race, Hot Cross Buns Race and the amazing Santa's Little Helper's Race.

Each event had a message of its own to convey like the Super Hero Drill made everyone realize that there is a super hero in each and every child and each child has some special power and potential. Similarly the Pole Drill sent the message of staying fit and doing regular exercise. The Puppet Drill too showed us how animals are indeed our friends and we must protect them in their natural habitats.
